PROFESSIONNAL EXPERIENCE

Rural Hackers · AR Software Engineer August 2024 · September 2024

Developed an **Augmented Reality** mystery game during a Tech Residency to revitalize rural areas through interactive storytelling. Used **A-Frame** and **MindAR** to implement marker-based AR and **3D character generation**. Integrated real-time interactions via Pusher.js and built a non-linear narrative system.

Cubyn · Software Engineer May 2022 · September 2023

Contributed to a large-scale microservices architecture (80+ services) orchestrated with **Kubernetes** on Google Cloud Platform. Designed backend services using Node.js and TypeScript, working with **MySQL**, **RabbitMQ**, and **Elasticsearch**. Developed frontend features with Vue.js and maintained **CI/CD** pipelines using CircleCI. Ensured system stability through unit and integration testing with Jest.

Klox · Software Engineer September 2021 · March 2022

Developed and maintained a fullstack **SaaS platform** with a **React/Next.js** frontend and Node.js backend. Built **GraphQL** APIs with Apollo Server and managed **PostgreSQL** databases using TypeORM. Integrated third-party services including HubSpot, Stripe, Pennylane, Google Sheets, and Google Cloud. Implemented user dashboards and participated in architecture decisions and code reviews.

Station F · Entrepreneur & Product Designer October 2020 · April 2021

Worked on an early-stage marketplace project for French artisans during a 6-month acceleration program. Conducted market research, defined product requirements, and designed **UX/UI** prototypes using **Figma**. Collaborated with developers to translate designs into a functional prototype using lean product methodology.
